

Environmental Policy

Recycled Packaging Verification

Southwest Contract / Panel Specialists, Inc. has included detailed descriptions and explanations of it's initiatives/procedures that relate to our environmental mission:

“Southwest Contract / Panel Specialists, Inc. is committed to a program of environmental safety/conservation through internal resource management as well as purchases that promote the use of environmentally friendly materials for product production.”

Such purchases include:

- 100% Certified Wood materials
- 90% Recycled steel materials
- 23% Recycled laminate materials
- 100% Recycled upholstery fabrics
- 45% recycled packaging material (letter from our supplier included)
- Rapidly renewable core materials
- Certified Green core materials
- Low VOC (Volatile Organic Compounds) emitting materials finishes
- Water based finishing material

It should also be noted that the LEED (Leadership in Energy and Environmental Design) criteria credits that apply to our products are detailed within our support documentation.
